REFERENCES

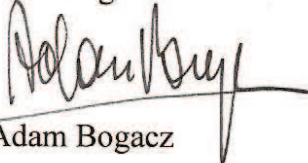

To Whom It May Concern:

After a 3-year long cooperation between Ms Katarzyna Wielenska, Excellence Translations and AKB Consulting, I would like to recommend translation services delivered by Excellence. AKB Consulting and Excellence Translations have cooperated in the area of technical translations referring to food industry as well as general business issues.

In the period of our cooperation, Excellence Translations has translated very often difficult and complicated texts in the area of foodstuffs, nutrition and health with a strong emphasis on functional foods. All translations made by Excellence, both from Polish into English and vice versa, have had the best quality possible. Recently, we have been able to observe analogically high level of translation services in Russian and Bulgarian.

Personally, I have been enchanted by the attention Ms Katarzyna Wielenska pays to understand a given phenomenon or even the smallest detail in a particular project. It is not surprising that an outstanding level of expertise and involvement in the process of maintaining a superior quality of work for the benefit of a client has won my deepest respect.

Kind Regards

Adam Bogacz
