Swisspol Capital S.A. with its registered office in Warsaw entered into permanent and active cooperation with Excellence Translations in 2006. In most cases Swisspol Capital assigns to Excellence translations of financial and legal documentation from Polish into English and English into Polish. The assigned texts are characterized with a very specific and difficult expert language and vocabulary, however, these are always faithfully reflected in translated documents.

So far we have been fully satisfied with our cooperation and high quality of translations delivered by Excellence Translations thus we perceive this company as a serious business partner. Reliability and punctuality in fulfilling contractual obligations as regards entrusted translations lets us strongly recommend Excellence's services to other companies.

Kind Regards,

Prezes Zarządu
