Andrzej Jonas  
President and Editor-in-chief

Warsaw, July 2010

We hereby confirm that in June 2010 Excellence Translations delivered interpretation services at the "Polish and European Energy Security" conference organized by Warsaw Voice S.A. with headquarters in Warsaw.

The cooperation included consecutive interpretation of a conference panel discussion held in the Polish-English-Polish language combination. The interpretation was delivered at the highest linguistic level in an effective and professional manner.

We have a pleasure to inform that competences of Excellence's interpreters were very highly evaluated and therefore we may heartily recommend Excellence as a reliable and verified provider of translation and interpretation services.
